#### General Comments

Patient came to medical for breathing tx. Out of albuterol tx at this time. Will consult provider for alternate tx. Patient in no distress, O2 sat 98%.

Patient given lay in for rest of day and returned to dorm.

Albuterol tx arrived from pharmacy. Patient called to medical and tx administered. Wheezing heard in bil lungs, improved but not completely resolved after tx.

**General Comments**

Offender stated that she broke of a cotton tip in her right ear while in the shower. Offender stated she tried to retrieve with tweezer and was unable to get out. Offender , stated she can't hear out of her ear because it is down there. I used scope to visualize area no cotton tip was noted in ear did note that redness and bleeding from use of sharp object appeared irritated . Ask offender to try heat and educated on cleaning of ear canal and not to insert qtip in ear. Educated if ear got infected and painful to issue an HCR and we would reffer to NP verbalized unstanding

**MENTAL STATUS EXAM**

**GENERAL OBSERVATIONS:**

Appearance: Other: multiple facial tattoos

Build/Stature: Within normal limits

Posture: Within normal limits

Eye Contact: Average

Activity: Within normal limits

Attitude toward examiner: Cooperative

Attitude toward parent/guardian: Not Applicable

Separation (for children/adolescent): Not applicable

**MENTAL STATUS:**

Mood: Depressed

Affect: Labile

Speech: Clear

Thought process: Logical

Perception: WNL

Patient Name: RICHARDSON, JONATHAN C  
ID: 127630 Date of Birth: [REDACTED]

Page 75 of 291  
Encounter Date: 06/19/2023 11:10 PM

Hallucination: Denied None evidenced  
 Thought content: Depressive  
 Delusions: None Reported  
 Cognition: Within normal limits  
 Intelligence estimate: Average  
 Insight: Within normal limits  
 Judgment: Impaired ability to make reasonable decisions: Moderate

**Goals, Objectives, and Interventions Addressed Today**

Goal Today	Objective Today
Depressive symptoms do not impair daily functioning	Verbalizes increased feelings of self worth

**Interventions/Methods Provided:**

Pt describes that she met a 19-yo woman thru a friend in prison several years ago. She said that the young woman found a surrogate to get pregnant, but the I/I would be the father. However, she recently had a miscarriage and is currently in the hospital with suicidal thoughts, and apparently she came from an abusive environment too. This caused Ms. Richardson to cry uncontrollably which is spilling over into problems on the dorm. She requested to be allowed to not attend work for a few days which she says she was allowed to do at other facilities. MHP Mr. Eli Sowry arranged this to happen through I/I's case manager.

Impressions: Complex case because the loss of this child may remind or haunt Pt of the loss of her own child whom she brutally murdered in the early 2000s. Tearful and appreciative in session.

Plan: Maintain C code. F/u per policy.

**Current Assessment**

**Assessment:**

Anxiety is significant. Cognitive issues are not significant. Substance abuse/dependence is not significant. Depression is significant. Impulse control is not significant. Psychotic symptoms are not significant. Suicidality is not significant. Mania/manic behavior is not significant. The patient is compliant with medications. The patient is compliant with the treatment plan. The patient is cooperative and communicative.

**Risk Assessment**

**CURRENT ENCOUNTER**

**Risk Assessments**

Patient denies suicidal ideation, plan, intent, and/or attempt.  
 Patient denies property damage ideation, plan, intent, and/or attempt.  
 Patient denies homicidal ideation, plan, intent, and/or attempt.

**RISK ASSESSMENT HISTORY**

Risk	Current	Past	Documented	Event Date	Approximate Date	Ideation	Plan	Intent	Scale
Suicide	Denies		06/19/2023	06/19/2023	No				
Property	Denies		06/19/2023	06/19/2023	No				
Homicide	Denies		06/19/2023	06/19/2023	No				

Attempt	Planned/ Impulsive	Drug/Alcohol Influenced	Medically Treated	Plan Attempt Description
---------	-----------------------	----------------------------	----------------------	--------------------------

#### SAFETY MANAGEMENT PLAN

No currently expressed suicidal or homicidal ideation or intent. No current need for safety plan.

#### Assessment/Diagnosis

AXIS IV

Severity: Moderate

Problem Type	No/Yes	Description
Primary Support Group	Yes	Very little external support
Social environment	Yes	Difficulty Trusting Others - suspicious - isolates
Legal system/crime	Yes	Incarcerated

AXIS V

Current GAF: 65

Date: 06/19/2023.

Highest GAF: 72

Date: 05/08/2023.

## History of Present Illness:

### 1. DISCUSS ASTHMA

Reports he was at NCF and fell off the CC for asthma last month. has had asthma since childhood.

Reports he has had issues for a long time.

Works in the kitchen, does not bother him, but the climate chg coming to Branchville has bothered him.

Having wheezing and SOB since weather has changed.

Received a rescue inhaler last week, has used it 3-4x/day.

Has used a maintenance inhaler in past.

## PROBLEM LIST:

Problem Description	Onset Date	Chronic	Clinical Status	Notes
Gender identity disorder of adulthood	06/17/2020	N		
Gastroesophageal reflux disease	02/19/2015	Y		Mapped from KBM Chronic Conditions table on 05/09/2016 by the ICD9 to SNOMED Bulk Mapping Utility. The mapped diagnosis code was Esophageal reflux, 530.81, added by Paul A. Talbot, MD, with responsible provider Paul A. Talbot MD. Onset date 02/19/2015.
Borderline personality disorder	05/04/2010	Y		Mapped from KBM Chronic Conditions table on 05/09/2016 by the ICD9 to SNOMED Bulk Mapping Utility. The mapped diagnosis code was Borderline personality disorder, 301.83, added by Darla Hinshaw, MD, with responsible provider . Onset date 05/04/2010; Axis II.
Recurrent major depressive episodes, mild	10/21/2019	N
